

D.T. Knowledge Organiser: Slippers

Key question: How can I make an attractive and comfortable pair of slippers fit for purpose?

Key Vocabulary

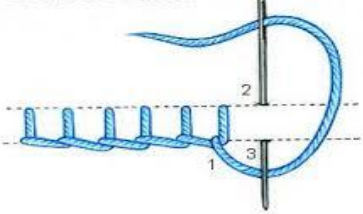

fabric swatches, working drawing, pattern, template, seam, seam allowance, insulation, sole, upper, inner, reinforce, right side/wrong side, stitch, stitching, tacking, wadding, sewing machine, blanket stitch, hem

Examples

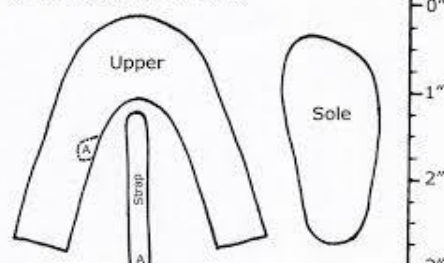

Skills

Blanket stitch

Shoe Pattern for Narae43

Considerations:

- will the slippers fit comfortably?
- how can I ensure they do not fall apart?
- do they look appealing and eye-catching?
- which materials will be most comfortable/practical/durable?
- how will I ensure they do not fall off when wearing them?

Research professional slippers and evaluate purpose and audience

Create initial designs considering the materials that will be needed.

Learn and practice techniques that will be needed to manufacture slippers

Manufacture the slippers

Evaluate the effectiveness and success of your slippers
