

SEASONAL CHANGES

What happens in each season?

Spring

In spring, the weather starts to get warmer after winter.

-Lots of baby animals are born and new flowers blossom.

-The spring months are March, April & May.

Summer

-Summer is the warmest season of the year.

-Insects such as wasps and bees are around, and plants have lots of leaves.

-The summer months are June, July & August.

Autumn

In autumn, the weather starts to get cooler after summer.

-Many types of leaves begin to turn brown and fall from trees.

-Autumn is September, October & November

Winter

-Winter is the coldest season of the year.

-Many trees have no leaves and many animals are hibernating.

-Winter is December, January & February.

Key Vocabulary

season, summer, winter, Autumn, spring, sun, wind, rain, snow, hail, sleet, fog
