

Mary Seacole

Marie Curie

Florence Nightingale

Florence Nightingale made nursing a profession: she wrote a book that other nurses used to help them; she trained many nurses. She was determined to work and went against what was expected of women of her class in the Victorian era.

Mary Seacole has a **monument** to her in central London. She overcame challenges because she was poor, black and from another country. Mary Seacole wrote a book that tells us about her work all over the world.

Marie Curie was a scientist, in a time people didn't think women were clever enough to be scientists. She won two Nobel Prizes and worked hard to find a cure for cancer.

Year Two History Heroes of Healthcare

Mary Seacole, Florence Nightingale and Marie Curie were all significant people in healthcare from history.

Mary Seacole and Florence Nightingale **travelled far away** from home to help soldiers in the **Crimea**. They helped injured soldiers.

Florence Nightingale **improved conditions** in hospitals. Mary Seacole ran a business to help soldiers recover. She visited soldiers on the battlefield.
